

✓1 st Crypto Asset Manager running Hedge fund.

www.acfio.org

INTRODUCTION:

»The first 100% algorithmic crypto asset manager surfing on two exponential trends: the quantitative management wave and the crypto currency universe's expansion.

»Founded by ex-multi-billions asset managers in tier 1 banks, it will propose all-weather performing investment solutions for crypto holders, through Decentralized Autonomous Funds (DAFs).

History:

- » There were 6 Financial experts who invested their money in the equities and Foreign exchange using their skills to earn for a better lifestyle.
- » After 5 Years of successful analysis they thought of hedge fund(an offshore investment fund, typically formed as a private limited partnership, that engages in speculation using credit or borrowed capital).
- » They also created their own payment gateway so that they keep the data of customers secure and protected and also provide protection to merchants from heavy fees.
- » Luxembourg, Estonia, Netherland, Belgium are the four countries where they thought to give a startup to their idea.
- » In Luxembourg they met with a software company and after giving them algorithm, they created a website ACFIO.

Algorithm Explanation:

- » The Experts have made algorithm in such a way that every single investor gets profit as a segments gets over.
- » Total there are 5 Segments.
- » The ICO(Initial Coin Offering) for ACFIO is 0.10\$ per coin.
- » An investor has to buy minimum 30\$ coins i.e. 300 coins to get the benefits of ACFIO.
- » Each Segment gets completed in 20 days.
- » After the completion of first segment the investor gets 25% of their coin with the increased revenue of coin to resale them into the market.

Revenue Increment:

	Payout Date	Payout Ratio	Speculated Rate
Segment 1	20 May 2018	25%	0.10\$
Segment 2	09 June 2018	25%	0.14\$
Segment 3	30 June 2018	25%	0.20\$
Segment 4	20 July 2018	25%	0.25\$
Segment 5	09 August 2018	25%	0.30\$

OUR VISION:

Investment Solution

To Trade crypto-assets is very convenient since it may benefit from the full power of smart contracts with a completely seamless structure within the crypto environment.

Rise in crypto market capitalization

Our vision is that in a few years time, large institutional investors will start diversifying their investment portfolio in order to incorporate these new assets in their allocation.

Modern asset management

The Asset management industry has been dominated, in an oligopolistic manner, by large banks or financial institutions for ages. They have collected huge amount of fees while delivering poor performance.

Volume

Even with the recent market capitalization records, BTC and ETH are still a fraction of the largest asset markets, Giving the possibility to invest in real assets would allow to manage larger amounts of funds from day one than simply trading altcoins and bitcoin.

Diversification

Portfolio management intrinsically relies on diversification. Creating numerous DAFs will offer this possibility.

Value Transfer

With efficient trading strategies, lots of value can be seized from the real world and transfer back to the crypto ecosystem. Such value transfer shall fuel the growth of the crypto world and accelerate its journey towards general acceptance.

Why to choose us?

Quantitative
Management

Crypto-currency
expansion

01

Self Exchange Wallet

From AFC Wallet, conversion of one crypto currency to another is possible.

Investment Solution

Investment solutions are still limited within the blockchain ecosystem, restricting investors to manage most of their savings outside the crypto currency environment.

03
