

# ACFIO

- *1<sup>st</sup> Crypto Asset Manager running Hedge fund*
  - [www.acfio.org](http://www.acfio.org)

# INTRODUCTION

The first 100% algorithmic crypto asset manager surfing on two exponential trends: the quantitative management wave and the crypto currency universe's expansion. Founded by ex-multi-billions asset managers in tier 1 banks, it will propose all-weather performing investment solutions for crypto holders, through Decentralized Autonomous Funds (DAFs).

# OUR VISION

## Investment Solution

To trade crypto-assets is very convenient since it may benefit from the full power of smart contracts with a completely seamless structure within the crypto environment.

## Rise in crypto market capitalization

Our vision is that in a few years time, large institutional investors will start diversifying their investment portfolio in order to incorporate these new assets in their allocation.

## Modern asset management

The asset management industry has been dominated, in an oligopolistic manner, by large banks or financial institutions for ages. They have collected huge amounts of fees while delivering poor performance.

## Tokenization

Our vision is that, within a few years, most of today's real assets will be tokenized implying that most of the Stock Exchanges will authorize the issuance of shares in crypto-currencies.

## Volume

Even with the recent market capitalization records, BTC and ETH are still a fraction of the largest asset markets (equities, fixed income ...). Giving the possibility to invest in real assets would allow to manage larger amounts of funds from day one than simply trading altcoins and bitcoin.

## Value Transfer

With efficient trading strategies, lots of value can be seized from the real world and transfer back to the crypto ecosystem. Such value transfer shall fuel the growth of the crypto world and accelerate its journey towards general acceptance (virtuous cycle).

## Diversification

Portfolio management intrinsically relies on diversification. Creating numerous DAFs will offer this possibility.

# Reasons to choose us

## Self Exchange Wallet

From AFC Wallet, conversion of one crypto currency to another is possible

## Investment Solution

Investment solutions are still limited within the blockchain ecosystem, restricting investors to manage most of their savings outside the cryptocurrency environment

## Expert Trading

the 1st crypto asset management firm proposing to investors performing and highly scalable trading

## DAFs

Combining this tokenization with the emergence of quantitative investment strategies should allow to create a leading actor in the crypto quantitative trading space.

# Trading process

## Register

Register to our wallet by providing email address.

## Deposit

Deposit BTC, ETH, etc into your wallet.

## Buy

Buy AFC from deposited and confirmed BTC, ETH, etc.

## Trade

Trade with the paired crypto currencies within the wallet.

# About Us

AFC ambitions to become the 1st algorithmic asset management company for crypto investors.

The value proposal is underpinned by long standing performing trading running on a variety of highly liquid assets.

AFC will benefit from a large range of existing trading systems developed by an experienced team in financial markets.

A game changer, for both the crypto world and the traditional asset management industry!

AFC will drive DAFs development strategy, benefit from 85% of all botons consumed (performance fees) generated by the various DAFs and allow for preferred access during the future DAFs' launch.

# Any device, anywhere

- **Easy to use**
- AFC is user friendly, can be accessed from anywhere in the world at any anytime and also on any device.

# Social media
